1. INTRODUCTION

This deliverable presents the final ranking list of proposals submitted to the two first Joint Transnational Calls of ERA4Health. The ranking list of JTC1, HealthEquity, was established following an eligibility check by the participating funding organisations, a remote evaluation by 3 members of the Peer Review Panel (PRP), a rebuttal phase and a discussion between the PRP members in face to face meeting. A similar procedure was followed for the evaluation of the full proposals of JTC2, CARDINNOV. In both cases, the evaluation was performed according to 3 main evaluation criteria: 1. Excellence 2. Impact 3. Quality and efficiency of the proposed research and its implementation.
