

Results of the ERA4Health HEALTHEQUITY Call 2023

Proposal overview of the co-funded call on “Increasing health equity through promoting healthy diets and physical activity”.

Introduction:

ERA4Health launched its first Joint Transnational Call (JTC) for research proposals, co-funded by the European Commission (EC), in January 2023 (JTC1-HealthEquity). In the framework of this call, 19 funding organizations from 16 countries, together with the EC, joined forces to fund the best collaborative transnational research projects under the topic of " Increasing health equity through promoting healthy diets and physical activity". Ultimately, 10 transnational consortia were selected for funding with a total budget of 13.52 million Euros.

HEALTHEQUITY Call statistics:

The table below shows the number of countries and research groups for submitted proposals and funded projects. The overall success rate between the proposals and the funded projects is 32%. In this call, 10 proposals were funded, with the support of European Commission co-funding, with a total requested budget of 12,94 M€.

Proposals overview:

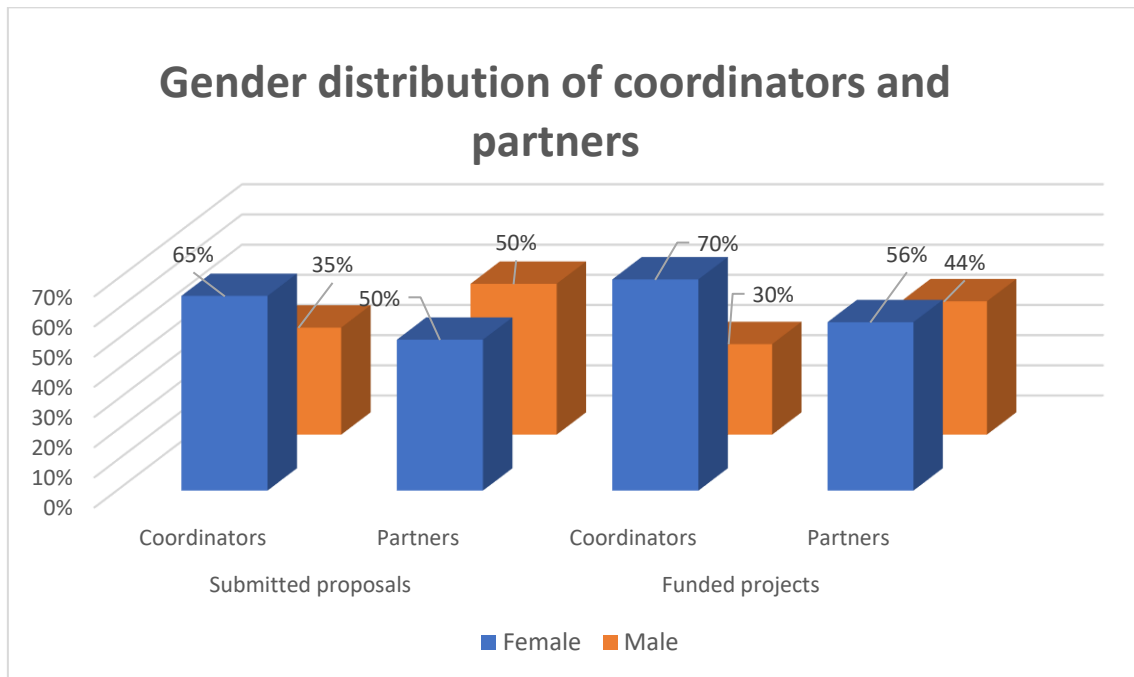

JTC1	# Proposals	# Countries involved	# Research groups
Eligible proposals	31	15	145
Funded projects	10	15	53

Gender distribution of coordinators and partners

The graph underneath shows the gender distribution of coordinators and partners for the submitted proposals and the funded projects. Among the coordinators, the presence of women

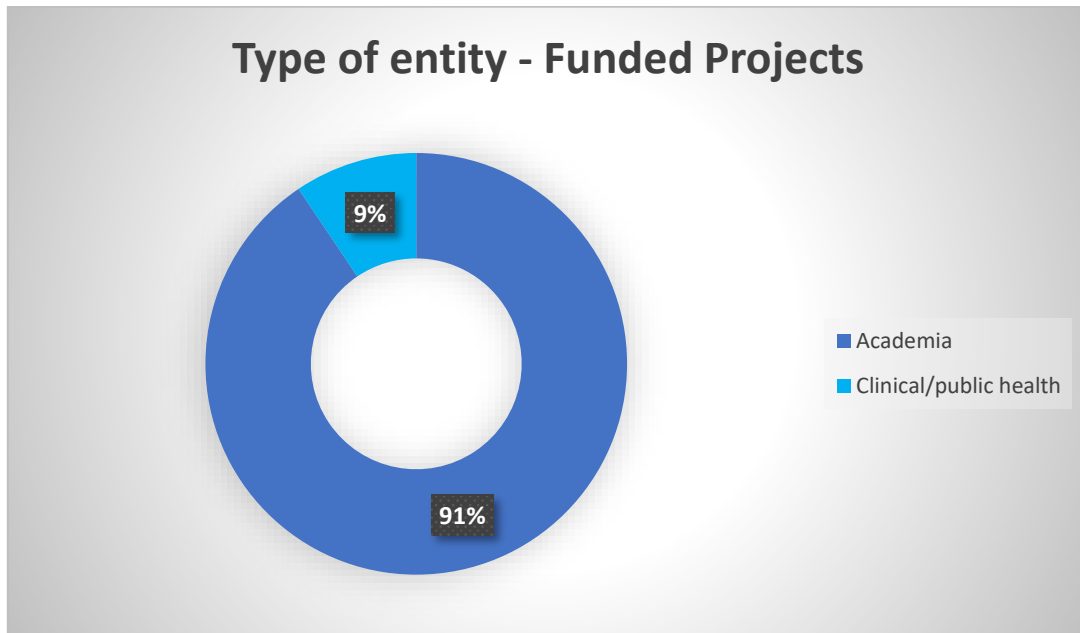

is clearly more pronounced, while among partners there is a low difference in gender distribution, both in proposals and funded projects.

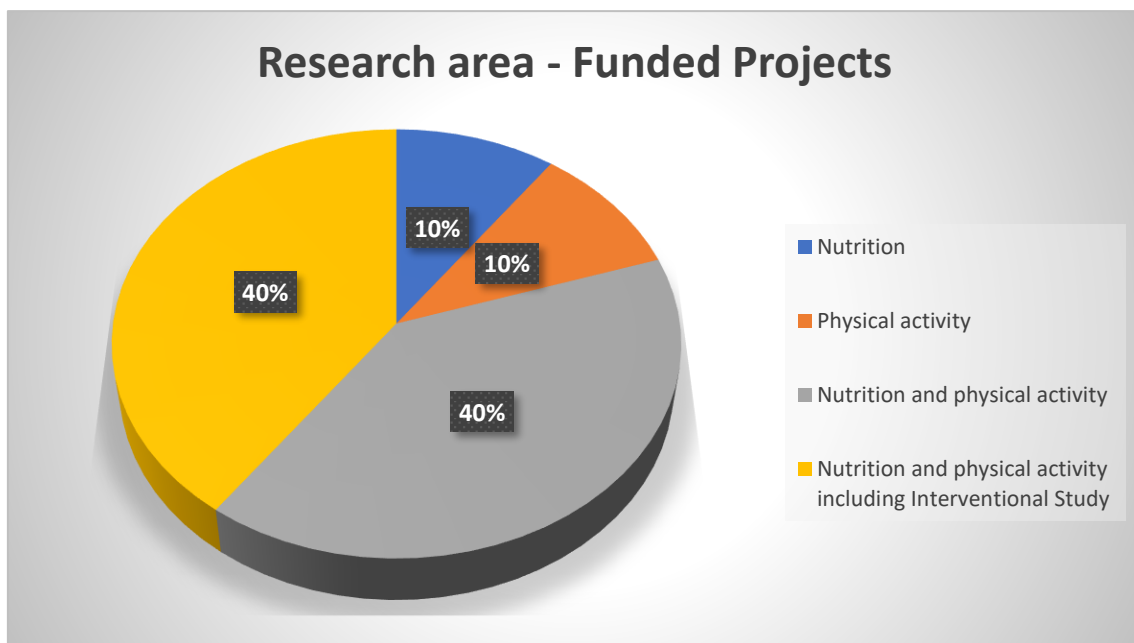

About Funded Projects

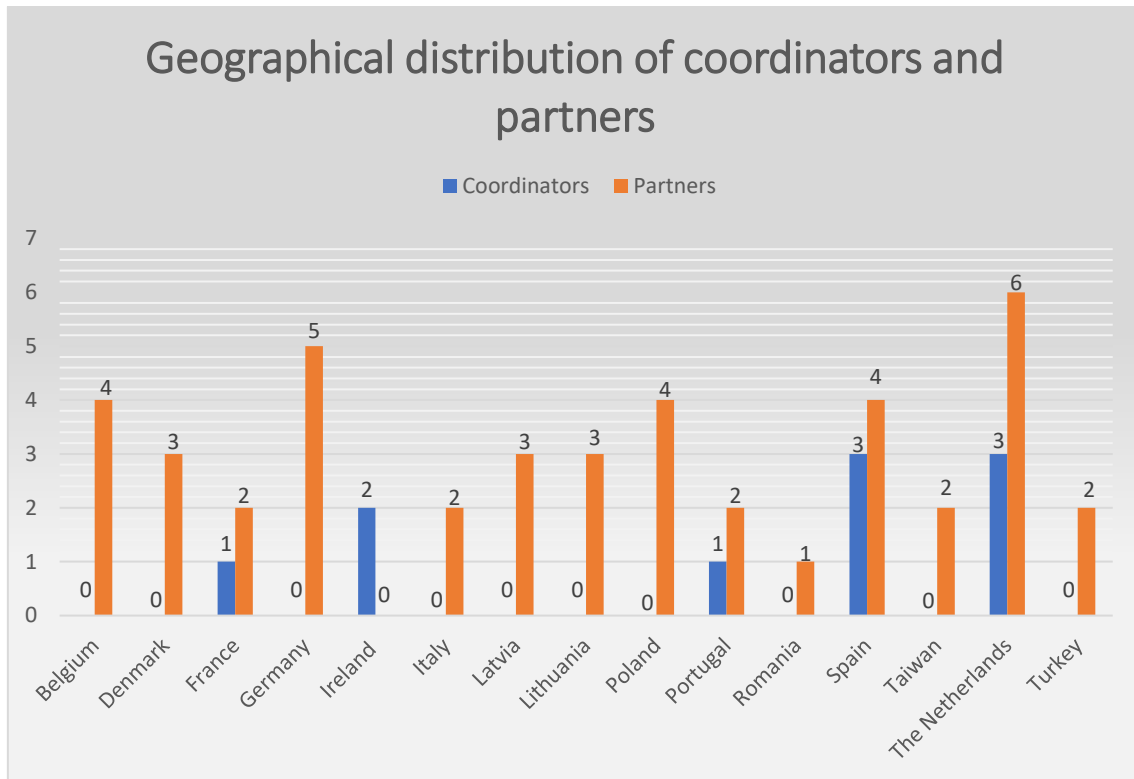

Type of entity - Funded Projects

Research area - Funded Projects

Geographical distribution of coordinators and partners - Funded projects
